activity. The company was founded in 1952, and the first years it supplied exclusively the Norwegian market with environmental laboratory equipment. From the base in Bergen on the Norwegian West coast the activity has

increased, so today we export our products to nearly 30 countries throughout the world. Approximately 80% of the turnover is export.

Termaks products are marketed by a net of well established and skilled distri-

butors who are able to give excellent support regarding both sales and service
